[Refine Search] ACLM/(((cache OR caches) AND (((miss OR misses) OR missed)

	PAT. NO.	Title
1	10,963,380	Cache miss thread balancing
2	10,782,977	Fault detecting and fault tolerant multi-threaded processors
3	10,740,261	System and method for early data pipeline lookup in large cache design
4	10,698,813	Memory allocation system for multi-tier memory
5	10,613,859	Triple-pass execution using a retire queue having a functional unit to independently execute long latency instructions and dependent instructions
6	10,551,896	Method and apparatus for dynamic clock and voltage scaling in a computer processor based on program phase
7	10,521,390	Systems and method for mapping FIFOs to processor address space
8	10,353,817	Cache miss thread balancing
9	10,309,838	Temporal temperature sensor position offset error correction
10	10,296,671	Method of and apparatus for performing simulation using plurality of processors in parallel
11	10,268,481	Load/store unit for a processor, and applications thereof
12	10,261,835	Hardware thread scheduling
13	10,185,659	Memory allocation system for multi-tier memory
14	10,175,984	Apparatus and method to preclude non-core cache-dependent load replays in an out-of-order processor
15	10,162,641	Highly integrated scalable, flexible DSP megamodule architecture
16	10,146,691	System and method for performing partial cache line writes without fill-reads or byte enables
17	10,146,547	Apparatus and method to preclude non-core cache-dependent load replays in an out-of-order processor
18	10,146,546	Load replay precluding mechanism
19	10,146,540	Apparatus and method to preclude load replays dependent on write combining memory space access in an out-of-order processor

20 10,146,539 **T** Load replay precluding mechanism

21 10,133,580 **T** Apparatus and method to preclude load replays dependent on write combining memory space access in an out-of-order processor

22 10,133,579 **T** Mechanism to preclude uncacheable-dependent load replays in out-of-order processor

23 10,127,046 **T** Mechanism to preclude uncacheable-dependent load replays in out-of-order processor

24 10,108,428 **T** Mechanism to preclude load replays dependent on long load cycles in an out-of-order processor

25 10,108,420 **T** Mechanism to preclude load replays dependent on long load cycles in an out-of-order processor

26 10,095,647 **T** Accelerator architecture on a programmable platform

27 10,095,514 **T** Mechanism to preclude I/O-dependent load replays in an out-of-order processor

28 10,088,881 **T** Mechanism to preclude I/O-dependent load replays in an out-of-order processor

29 10,083,038 **T** Mechanism to preclude load replays dependent on page walks in an out-of-order processor

30 10,078,763 **T** Programmable unit for metadata processing

31 10,067,813 **T** Method of analyzing a fault of an electronic system

32 10,043,230 **T** Approach to reducing voltage noise in a stalled data pipeline

33 10,031,849 **T** Tracking alternative cacheline placement locations in a cache hierarchy

34 9,965,889 **T** Ray tracing core and ray tracing chip having the same

35 9,946,547 **T** Load/store unit for a processor, and applications thereof

36 9,915,998 **T** Power saving mechanism to reduce load replays in out-of-order processor

37 9,892,050 **T** Multi-stage translation of prefetch requests

38 9,851,774 **T** Method and apparatus for dynamic clock and voltage scaling in a computer processor based on program phase

39 9,846,646 **T** Methods and devices for layered performance matching in memory systems using C-AMAT ratios

40 9,804,845 **T** Apparatus and method to preclude X86 special bus cycle load replays in an out-of-order processor

41 9,754,103 **T** Micro-architecturally delayed timer

42 9,753,735 **T** Thread issue control

43 9,740,271 **T** Apparatus and method to preclude X86 special bus cycle load replays in an out-of-order processor

44 9,703,945 **T** Secured computing system with asynchronous authentication

45 9,703,681 **T** Performance optimization tip presentation during debugging

46 9,703,359 **T** Power saving mechanism to reduce load replays in out-of-order processor

47 9,697,124 **T** Systems and methods for providing dynamic cache extension in a multi-cluster heterogeneous processor architecture

48 9,659,251 **T** Systems and methods of autonomic virtual network management

49 9,652,392 **T** Using L1 cache as re-order buffer

50 9,645,837 **T** Methods for compilation, a compiler and a system

[Refine Search] [ACLM/((("voice message" or "voice messages") OR "voice mess]

	PAT. NO.	Title
1	10,976,926	Virtual smart phone
2	10,956,761	Control apparatus, control method agent apparatus, and computer readable storage medium
3	10,952,455	Machine for making food products in liquid or semi-liquid form
4	10,951,764	Issue resolution script generation and usage
5	10,944,864	Methods and apparatus for identification and optimization of artificial intelligence calls
6	10,944,726	Method and application for communicating sensitive information
7	10,924,417	Cognitive communication channel-adaptation based on context
8	10,917,241	System and method for customizing inmate communication notification
9	10,904,392	System and method for facilitating setup and joining of conference calls
10	10,896,429	Method and system for auditing and verifying vehicle identification numbers (VINs) with crowdsourcing
11	10,893,040	Access control with authentication
12	10,891,959	Voice message capturing system
13	10,881,871	Remote medical device alarm
14	10,869,005	Electronic doorbell system with reduced latency
15	10,854,110	Automated real time interpreter service
16	10,853,579	Mixed-initiative dialog automation with goal orientation
17	10,820,162	Method and system for mobile user-initiated LTE broadcast
18	10,817,518	Implicit profile for use with recommendation engine and/or question router
19	10,811,001	Network-based background expert
20	10,809,974	Voice commands for online social networking systems
21	10,798,242	Call volume reduction based upon a propensity to call in connection with a reason code
22	10,796,346	Method and system for unusual usage reporting

Case 3:13-cv-07651-EMC   Document 244-23   Filed 04/26/21   Page 5 of 5

23 10,796,317 **T** [Method and system for auditing and verifying vehicle identification numbers (VINs) with audit fraud detection](#)
